

DEAR ACCELERATED READER TEACHERS:

-All student passwords for logging on to A.R. have been changed. To avoid future cheating issues, students are not able to know their logon passwords, but must be logged in by a teacher/staff member. **Please do not give the secret password to students.** Have them find/type in their user names, and then enter the password yourself.

If you are going to do a large lab testing day, you can change the student passwords for just your classes by logging in as an administrator (██████████), going to personnel, students, and parents in A.R., clicking on "edit multiple students," choosing your class on the pull-down menu, and entering a new password of your choice below (hit "apply to all"). You can change it back later.

-If you are not clear on the instructions, please ask Mrs. Beene, Mr. Judson, or Ms. Johnson to change your class passwords for you.
